Ethical production for tastier eggs.

ABOUT AUSSIE FEEDERS

Aussie Feeders is an agricultural equipment manufacturing company based in Woodside, South Australia. Our innovative design for chicken nesting trailers stems from our identification of a gap in the market for high quality agricultural products, which also help Farmers to produce eggs in a more ethical manner.

With a background in farming from our time in Warrnambool, Victoria, we're deeply knowledgeable with the requirements of agricultural products and understand the features that Farmers need and value.

AUSSIE MADE, BUILT TO LAST

STANDARD FEATURES

- 275 watt solar panels.
- Heavy duty battery.
- Chicken master controller for lights, exclusion nesting doors and one for actuated door.
- Trailer is on big farm implement tyres and 4-tonne axle.

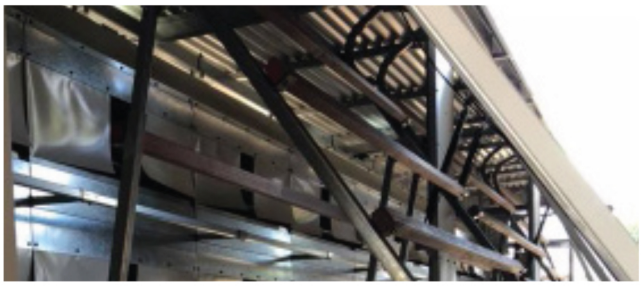
FEATURES

PERCH SYSTEM

Aussie Feeder's hardwood perch system is designed for when the doors are open or closed.

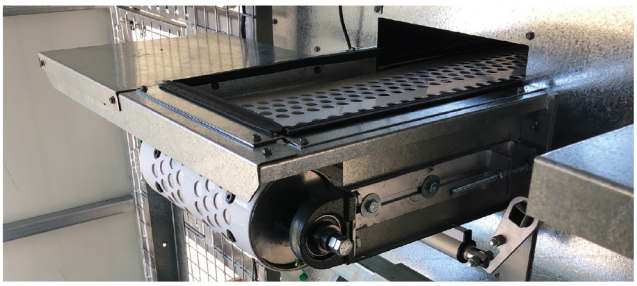


CRANK HANDLE

The crank handle makes it easy for levelling on the nesting box.

CONVEYER PACKING AREA

The conveyer belt is anti-slip when the belt is loose or tight, perfect for both hot and cold weather conditions. The conveyer belt system simplifies egg collection.



JACK SYSTEM

Our new jack system is built tough with a heavy duty drop leg and strong A-frame.

SPACIOUS PACKING AREA

Our new flat front Aussie Nesting Trailer gives you more room in the packing area.

AGRICULTURAL IMPLEMENT TYRES

Agricultural implement tyres with 4 tonne hubs and axle wide tyres help to avoid getting bogged in wet conditions. Now also available are hydraulics for uneven ground.

HEADQUARTERED IN SA

AUSTRALIAN MADE CERTIFICATION

Aussie Feeders is committed to using only Australian made products in the manufacturing of our feeders and chicken nesting trailers.

Aussie Feeders use only certified Australian Bluescope and Orrcon steel for all products. Not only does this guarantee the highest quality steel, you can also be assured that the steel is processed right here in Australia, which is great for Aussie business and jobs.
